Safety procedures during hot and humid weather conditions

June 6, 2011

Dear Staff and Parents:

During this June month the weather forecast has predicted hot and humid temperatures. As a safety precaution, we take the following steps to help our staff and students stay cool and safe:

- ❖ Request all teachers team teaching in rooms with air conditioning
- ❖ Encourage students and staff to stay hydrated with water throughout the day
- ❖ Provide an open schedule for teachers to use the Media Center, gymnasium, cafeteria, and other air conditioned rooms for instructional purposes
- ❖ Limit outside playing on the playground area

Please provide semi-frozen water or cold drinks with your child's snack every day. We appreciate your support in these matters. Through a co-operative effort we hope to ensure the health and well-being of everyone to stay cool during these days. Thank you in advance for your partnership. If you have any questions, please contact our offices.

Sincerely,

Denise King, Ed.D.
Principal
